Sequenze Electric painted in Pearl White (cod. 16)

## sequenze electric

ELECTRIC SEQUENZE adds to the depths of its shapes the fourth dimension of time, thanks to the programmable wireless control. Thus, the sculptural presence of Sequenze is enriched by the innovation of electronics, projecting it into the future.

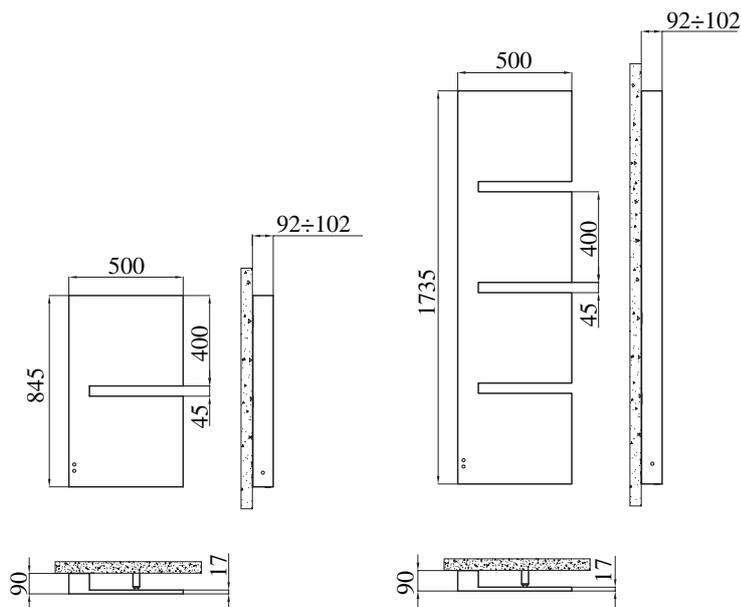

Sequenze S Electric painted in Pearl White (cod. 16)

# SEQUENZE

**ELECTRIC**

In photo: Sequenze electric radiator. Height mm 1735, width mm 500, painted in Pearl White (cod. 16).

**Sequenze S**

**Sequenze L**

**Packing included:**

- 1 wall bracket kit;
- 1 Heater heating system;
- 1 Wireless receiver integrated on the plate with 2 LEDS to signal the function mode;
- 1 Programmable wireless digital transmitter.

**TECHNICAL SPECIFICATIONS:**

Electric radiating panel.  
 Electrical power development: S Sequences 260 Watt, L Sequences 520 Watt.  
 Wireless digital electronic control featuring weekly program.  
 433 MHz function frequency.  
 Class II insulation, IP 44 protection index.  
 ITCS (Intelligent Temperature Control System) function to ensure the exact temperature at the set time.

MODEL	Code	Depth P mm	Height H mm	Width L mm	Weight Kg	Electric Power Watt
<b>Sequenze S</b>	<b>SQZA0845 Z xx</b>	90	845	500	19,7	<b>260</b>
<b>Sequenze L</b>	<b>SQZB1735 Z xx</b>	90	1735	500	38,9	<b>520</b>

• Sequenze Electric is available only in "Serie Special" colours.

## Controller Wireless

The new wireless controller allows complete remote management of every electric radiator function. The controller features a weekly program function that allows energy savings according to your lifestyle and routine. A different code is associated with each transmitter to avoid interference with nearby homes. Because they are wireless, the radiofrequency controllers offer the advantage of being quick and easy to install. Commands are transmitted via radio waves. The transmitter can even be placed on a piece of furniture. Because there are no wires, there is no need to carry out any modifications within the home.
